### **DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2009**

The directors of MEO Australia Limited (variously the "Company", "MEO" and "MEO Australia") submit their report for the financial year ended 30 June 2009. MEO Australia is a company limited by shares, incorporated and domiciled in Australia.

#### **1. DIRECTORS**

The names and details of the Company's directors in office during the financial year and until the date of this report are as follows. The directors were in office during the entire period unless otherwise stated.

##### **Nicholas M Heath B.Eng (Chem) (Hons)**

*Chairman (Appointed independent non-executive director 12 May 2008, appointed Chairman 13 November 2008)*

Mr Heath is a chemical engineer with over 35 years industry experience in Australian and international energy markets gained through senior management positions with ExxonMobil in Australia and overseas. He was a Director of ExxonMobil Australia Pty Ltd, the holding company for all of ExxonMobil's Australian assets and had specific responsibility for the marketing of natural gas and natural gas liquids throughout Australia. Mr Heath served as Chairman of the Australian Petroleum Production and Exploration Association (APPEA) from 1997-99. His depth of industry experience brings valuable expertise to the Board of MEO Australia Limited. Mr Heath has been appointed to the Audit Committee. Mr Heath also serves on the Board of ASX listed coal seam gas company – Metgasco Limited (ASX: MEL).

Mr Heath is Chairman of the Remuneration and Nomination Committee.

##### **Jürgen Hendrich B.Sc. (Geology) (Hons), PDM**

*Chief Executive Officer (Appointed 16 June 2008) and Managing Director (Appointed 25 July 2008)*

Mr Hendrich brings over 24 years experience as a petroleum geologist and investment banker to MEO Australia. He began his career with Esso Australia as a petroleum geologist and progressed from technical roles to commercial roles including strategic planning, Joint Venture relations and business evaluation. His investment banking career began with JB Were (now Goldman Sachs JB Were) where he became a top rated Energy Analyst prior to moving into funds management and eventually his own consulting practice specialising in providing strategic advice to emerging companies. He was a Director, Corporate Finance with Tolhurst for two years prior to joining MEO and is a non-executive director of ASX listed Segue Resources (ASX: SEG).

##### **Gregory A Short B.Sc (Geology) (Hons)**

*Independent Non-Executive Director (Appointed 14 July 2008)*

Mr Short retired from ExxonMobil in 2006 after a 33 year career as a geologist. He has extensive international experience in predominantly managerial roles in Malaysia, Africa and North America and spent the last 15 years of his career in management assignments that included Exploration Manager for USA, Chad and Nigeria as well as serving seven years in Angola as Geoscience Director. Mr Short brings valuable experience in taking several start-up ventures from exploration through to development and production start-up to MEO Australia.

Mr Short is a member of the Audit Committee.

##### **Stephen Hopley, PhC(Vic), DipFP(Deakin), GMQ (AGSM)**

*Independent Non-Executive Director (Appointed 1 October 2008)*

Mr Hopley enjoyed a 14 year career with Macquarie Bank from 1989 until his retirement in 2003. For the last 4 years of his career, Mr Hopley acted as Division Director of the Financial Services Group with responsibility for Advisor Relationships and Distribution. Mr Hopley successfully developed and implanted a range of new products for distribution and led a number of sales teams that achieved outstanding sales results and was responsible for the two largest retail cash products in the industry.

## **MEO Australia Limited**

### **DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009**

Mr Hopley has served on a number of Boards, foundations, committees and not for profit organisations. He is a past Board member of the Education Foundation of Australia, the Lord Mayor's Charitable Fund and is a past Securities Industry Education Chair of Task Forces in relation to final subjects in the Graduate Diploma in Financial Planning. He devotes part of his time as a business coach and mentor to a number of early stage enterprises.

Mr Hopley is Chairman of the Audit Committee.

#### **Michael J F Sweeney LLB, FAIMA, FCI Arb, Chartered Arbitrator** *Independent Non-Executive Director (Appointed 1 October 2008)*

Mr Sweeney practices as a Barrister at the Victorian Bar, Melbourne, specialising in the fields of energy and resources law, competition law/third party access regimes, joint ventures and generally in commercial and contract law. He also specialises in alternative disputes resolution, particularly arbitration both as qualified arbitrator and as counsel in arbitrations.

Mr Sweeney was the senior managing executive (prior to this, general counsel and company secretary) of the Mitsubishi and Mitsui interests (MIMI) in the Australian North West Shelf (NWS) Gas Joint Venture from 1986 to 1996. He served as a member of the NWS Joint Venture Project Committee and was deputised to the Board of the North West Shelf LNG Shipping Company. He was a member of the Tokyo based Operating Committee responsible for overseeing MIMI's investments in Australia.

Mr Sweeney is a member of the Remuneration and Nomination Committee.

#### **Warwick Bisley B.Eng (Mech) (Hons) FTSE, FRACI, FIE Aust, MAICD** *(Appointed 18 October 2001 and resigned 13 November 2008)*

Mr Bisley is a mechanical engineer with extensive domestic and international senior management experience in the petrochemical industry wholly with Esso/Exxon companies. Mr Bisley was Chairman of MEO from 1 July 2005 and served on the Remuneration and Nomination Committee.

#### **Christopher R Hart FAICD** *(Appointed 21 June 1995 and resigned 30 September 2008)*

Mr Hart co-founded Timor Sea Petroleum NL (the precursor to MEO Australia) and remained Managing Director until July 2008.

#### **Andrew J Rigg B. Sc (Geology). (Hons) MAICD** *(Appointed 28 November 1997 and resigned 31 October 2008)*

Mr Rigg is a petroleum geologist with wide experience in significant Australian and international petroleum exploration and production projects, including CO<sub>2</sub> sequestration. Mr Rigg was the Chairman of the Audit Committee.

#### 4. REMUNERATION REPORT (Audited)

The Remuneration Report outlines the remuneration arrangements in place for directors and executives in accordance with Section 300A of the Corporations Act 2001 and its Regulations.

The information provided in this Remuneration Report has been audited as required by Section 308 (3C) of the Corporations Act. This Remuneration Report forms part of the Directors' Report.

##### Remuneration and Nomination Committee

The Remuneration and Nomination Committee of the Board of Directors of the Company is responsible for determining and reviewing compensation arrangements for the directors and executives.

The Remuneration and Nomination Committee assesses the appropriateness of the nature and amount of emoluments on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality board and executive team.

The structure of non-executive director and executive remuneration is separate and distinct.

### **DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009**

#### **REMUNERATION REPORT (Audited) (cont)**

##### **4.1 Remuneration philosophy**

The performance of the Company depends upon the quality of its directors and executives. To prosper, the Company must attract, motivate and retain highly skilled directors and executives.

To this end, the Company embodies the following principles in its remuneration framework:

- Competitive rewards are set to attract high calibre executives;
- Executive rewards are linked to shareholder value;
- A significant portion of executive remuneration is dependent upon meeting pre-determined performance benchmarks; and
- Appropriate performance hurdles are established in relation to variable executive remuneration.

The Company during the year has focussed on the drilling of the Zeus-1 exploration well, acquisition, processing and interpretation of 3D seismic over the Artemis structure in WA-360-P and actively promoted the farmout of part of MEO's interest in WA-360-P and continued to pursue Gas to Liquids developments on Tassie Shoal.

Creation of shareholder wealth is dependent upon a successful drilling program and/or the development of one or more of the GTL projects.

Accordingly, the Board's remuneration policy for executives includes the grant of rights with performance criteria linked to drilling and project development milestones and also the grant of rights with performance criteria linked to share price targets and market capitalisation.

In regard to share based remuneration the Company has an established overall Trading Policy in regard to directors and executives which provides appropriate guidelines, processes and restrictions on the sale of any shares and options in the Company by these officers and their related parties. Unless explicitly stated otherwise all options granted are non ASX listed options and as such have limitations on their marketability.

##### **Non-executive director remuneration**

The Board seeks to set aggregate remuneration at a level which provides the Company with the ability to attract and retain directors of high calibre, at a cost which is acceptable to shareholders.

The Constitution and ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by members in general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed. At the Annual General Meeting held on 13 November 2008 shareholders approved an aggregate annual remuneration of up to \$300,000 of which \$180,929 was paid to non-executive directors during the year ended 30 June 2009 (2008: \$150,905).

Each director has entered into an agreement as to the terms of their appointment as director of the Company and (other than the Managing Director) receives remuneration as a director, by way of fee or superannuation. Under such agreements current at the date of this report, there are no annual, long service leave or other termination entitlements. No remuneration is paid to directors for service on board committees or on the boards of wholly owned subsidiaries.

Non-executive directors have been granted options through the Senior Executive and Officers Option Plan to further align their interests as directors with those of shareholders. Non-executive directors have long been encouraged by the Board to hold shares in the Company. The Company facilitates this through the Directors' Share Savings Plan. Under the plan, non-executive directors are eligible to take up to 100% of their fees in the form of shares in the Company. The shares are purchased on market at the prevailing market share price. During the period of drilling the Zeus-1 well, the Board decided to suspend the purchase of shares under the Share Savings Plan.

### **DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009**

#### **REMUNERATION REPORT (Audited) (cont)**

##### **Executive director and other key management personnel remuneration**

The Company aims to reward executives with a level and mix of remuneration commensurate with their position and responsibilities within the Company and so as to:

- reward executives for individual performance against targets set by reference to appropriate benchmarks;
- align the interests of executives with those of shareholders;
- link reward with the strategic goals and performance of the Company; and
- ensure total remuneration is competitive by market standards.

In determining the level and make-up of executive remuneration, the Remuneration Committee reviews market levels of remuneration for comparable executive roles.

It is the policy of Remuneration Committee that employment contracts are entered into with the Managing Director and other executives and consultants covering the following key elements:

##### **Fixed Remuneration**

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. Fixed remuneration is reviewed regularly by the Remuneration Committee. The Committee has access to external advice if required.

##### **Variable Remuneration – Long Term Incentives**

- *Senior Executives and Officers Option Plan*

Executive directors and other key management personnel are entitled to participate in the Senior Executive and Officers Plan (see page 10 for details of options granted).

- *MEO Australia Performance Plan*

Performance rights entitle recipients to one fully paid ordinary share in the Company for each right held, upon attainment of performance conditions and expiration of the vesting period in relation to the relevant shares. No other consideration is received or will be received by the Company in relation to the provision of the right or the vesting of shares.

Executive directors are granted performance rights in accordance with their employment or consultancy contracts, the terms of which provide for treatment of performance rights held on cessation of employment. The performance rights lapse on expiration of the performance period determined at grant, and on cessation of employment subject to arrangements for death, disability or retirement.

The Company purchases shares on market on behalf of the plan trustee to satisfy obligations under the rights upon satisfaction of performance conditions.

The amount recognised as remuneration in relation to performance rights in accordance with AASB 2 *Share-based Payment* is shown in Table 1 on page 8 and Table 2 on page 9.

As at the date of this report, there are no Performance Rights outstanding.

##### **Employment contracts**

- *Managing Director and Chief Executive Officer Remuneration*

On 16 June 2008, Mr Jürgen Hendrich joined MEO in the role of Chief Executive Officer, and on 25 July 2008 assumed the position of Managing Director and Chief Executive Officer. Mr Hendrich entered into an executive service agreement dated 20 May 2008, which commenced on 16 June 2008 and will continue until 1 July 2011. Under the major terms of the agreement:-

- Mr Hendrich received an initial fixed remuneration of \$375,000 per annum plus superannuation which is reviewed by the Remuneration Committee at the completion of each twelve months of service.

The Remuneration Committee and Board of Directors have approved a \$25,000 per annum increase in the fixed remuneration component of the remuneration package with effect from 1 July 2009. The fixed remuneration from 1 July 2009 is \$400,000 per annum plus superannuation.

- Mr Hendrich may resign from his position and thus terminate this contract by giving three months written notice. On resignation any unvested options will lapse.
- The Company may terminate this employment agreement after 30 June 2009 by giving three months' prior notice in writing and making a termination payment equal to twelve months base salary plus any accrued entitlements. Share options that have reached the target price on the date of termination will vest without the need for 50 trading days at or above the target price having been achieved. The expiry date for vested options is June 30, 2012.
- The Company may immediately terminate this employment agreement by giving written notice if serious misconduct has occurred. Where termination with cause occurs all options which have not been exercised at the date of termination of employment will automatically lapse.

- *Other Executives (standard contracts)*

All executives have standard employment contracts. The Company may terminate the executive's employment agreement by providing written notice or providing payment in lieu of the notice period (based on the fixed component of the executive's remuneration). On termination of notice by the Company, any options that have vested or that will vest during the notice period will be released. Options that have not vested will be forfeited. The Company may terminate the contract at any time without notice if serious misconduct has occurred. Where termination with cause occurs the executive is only entitled to that portion of remuneration that is fixed, and only up to the date of termination. On termination with cause any unvested options will immediately be forfeited.

#### **4.2 Remuneration of key management personnel**

For the purposes of this report Key Management Personnel (KMP) of the group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the group, directly and indirectly, including any director (whether executive or otherwise) of the parent company, and includes the executives in the parent company and the group receiving the highest remuneration.

For the purposes of this report, the term "executive" encompasses the Managing Director and Chief Executive Officer, the Chief Financial Officer and Company Secretary and the Commercial Manager.

### **DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009**

#### **5. PRINCIPAL ACTIVITIES**

The principal activities of the Company during the year were the development of the Tassie Shoal Methanol Project, the Timor Sea LNG Project and oil and gas exploration in NT/P68 and North West Shelf Permits.

The Company had 10 employees at 30 June 2009 including directors (2008: 10). The Company also engages a number of full and part time consultants to assist in the development and management of its various activities.

#### **6. RESULTS FOR THE YEAR**

The net loss of the Group for the financial year, after provision for income tax, was \$28,184,784 (2008: loss after tax of \$1,870,636).

The successful drilling and commercialisation of any commercial oil and gas discoveries in NT/P68 and the North West Shelf Permits WA-359-P, WA-360-P and WA-361-P and/or the development of the Company's methanol and LNG Projects could ultimately lead to the establishment of a profitable business. While the Company is in the exploration/appraisal stage of drilling for hydrocarbons in NT/P68 and the North West Shelf Permits and in the project development phase, funding will be provided by equity capital raised from the issue of new shares and/or farm out or joint development arrangements with other companies.

##### **Review of Financial Condition**

At balance date the Company held cash and cash equivalents of \$17,200,481. During the year the Company decreased the cash balance by \$10,314,276 (before foreign exchange fluctuations) following net capital raisings of \$11,118,668 and interest received of \$985,338 which were used to meet exploration and capital cash outflows of \$18,562,010 and net corporate costs of \$3,856,272.

##### **Share Issues**

During the year the Company raised a total of \$6,265,050 (before transaction and other costs of \$588,253) from the proceeds from placement of 11,391,000 shares at \$0.55 per share to Mineralogy Pty Ltd.

##### **Trustee Share Sales**

In July 2008 the Trustee of the MEO Trustee Share Plan, Doravale Enterprises Pty Ltd, disposed of 10,000,000 shares at \$0.55 per share, raising \$5,500,000.

At the date of this report there are 10,122,918 shares subject to the plan.

#### **7. REVIEW OF OPERATIONS**

##### **Strategic alliance with RDI**

MEO commenced the period by signing a strategic alliance with Resource Development International Pty Ltd (RDI) in July 2008 – whereby RDI was granted options to earn an interest in all of MEO's exploration permits and its proposed Tassie Shoal gas processing projects by funding a series of staged work programmes. Exercising the options required the successful Initial Public Offering (IPO) and subsequent Hong Kong listing of RDI. The Global Financial Crisis that unfolded during the second half of 2008 caused a deferral of the IPO and the options to farm-in to WA-359-P, WA-360-P and the Tassie Shoal Projects subsequently lapsed.

The relationship with RDI resulted in the placement to RDI's parent company - Mineralogy Pty Ltd - of 11,391,000 MEO shares at \$0.55 each and the sale of 10,000,000 MEO shares held in the Trustee Share Scheme at \$0.55 each raising a total of \$11.8 million (before transaction costs). Mineralogy was also granted two million short dated (30 June 2009) options over MEO ordinary shares with an exercise price of \$0.55 per option. These options expired without being exercised. Proceeds from the placement to Mineralogy were in part used to meet MEO's share of costs (approximately 20%) related to the Zeus-1 exploration well in WA-361-P. RDI contributed approximately 80% of the well costs to earn a 35% interest in the permit.

### **DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009**

#### **7. REVIEW OF OPERATIONS (cont)**

##### **WA-361-P - Zeus -1 Exploration Well (MEO 35%)**

On 16th January 2009 the Songa Venus semi-submersible drilling rig arrived at the Zeus-1 location in WA-361-P and was drilled to a total depth of 3,642 metres on 11th February 2009 without encountering hydrocarbons. The well was subsequently plugged and abandoned with the drill rig being released on 19th February 2009.

##### **WA-360-P - Artemis Prospect (MEO 70%) and WA-359-P (MEO 60-70%)**

In December 2008, MEO negotiated a 12 month extension to 31st December 2009 to the drill/drop option it has over WA-359-P and WA-360-P. In consideration for this extension, MEO committed to acquire at least 175 km<sup>2</sup> of new 3D seismic in WA-360-P and contingent upon a successful outcome for Zeus-1, to reprocess existing 3D seismic over the Hephaestus lead in WA-359-P. This reprocessing obligation subsequently lapsed.

The 250 km<sup>2</sup> Artemis 3D seismic survey was acquired in WA-360-P during March 2009. Processing of the data was completed on schedule by the end of June 2009. Interpretation of the new data resulted in a substantial upgrade to the size of the Artemis prospect in mid-July.

MEO launched a formal farmout process in late April 2009 for a portion of its 70% interest in WA-360-P to enable the company to exercise its option to make a commitment by 31st December 2009 to fund the drilling of the Permit Year 5 commitment well. This 12 month period commences 1st February 2010.

##### **NT/P68 (MEO 90% in permit, MEO 100% in Blackwood gas discovery)**

During the year, MEO completed interpretation of the Blackwood 3D seismic survey. This data together with the information obtained during the drilling of the Blackwood-1 well and Heron-2 well will be used as a basis to relinquish 50% of the permit area and renew tenure to the remainder of the permit for an additional 5 years. This renewal period commences in February 2010.

##### **Tassie Shoal gas processing projects**

The Company continues to progress its proposed gas processing projects that are designed to convert natural gas into readily transportable and marketable commodities, i.e. liquefied natural gas (LNG) and chemical grade methanol.

Commonwealth Government Environmental approvals were granted under the Environment Protection and Biodiversity Conservation (EPBC) Act 1999, for the Timor Sea LNG Project (TSLNG) in 2004 and the Tassie Shoal Methanol Project (TSMP) in 2002. In May 2009 the Company was advised by the Commonwealth Government that it had renewed the Major Project Facilitation (MPF) status until December 2011 for both projects. The company continues to promote Tassie Shoal as a regional development hub for the commercialisation of stranded gas resources in the region.

In June 2009, the Resources Minister Mr. Ferguson flagged prospective changes to criteria used to assess commerciality of discovered resources. The changes are designed to encourage resource custodians to develop resources or risk losing tenure to those resources. This is potentially very positive for the Tassie Shoal development hub where substantial undeveloped resources exist in close proximity.

##### **Environment, Health and Safety**

The Company believes that workplace injuries are avoidable. It has implemented policies and procedures to ensure employees and contractors conduct their activities in a safe manner. Directors specifically addressed Health, Safety and Environment issues at each Board meeting. MEO has adopted an environmental, health and safety policy and conducts its operations in accordance with the Plastics and Chemicals Industries Association (PACIA) and Australian Petroleum Production & Exploration Association (APPEA) Codes of Practice.

### DIRECTORS' REPORT (continued) FOR THE YEAR ENDED 30 JUNE 2009

#### 7. REVIEW OF OPERATIONS (cont)

##### Environment, Health and Safety (cont)

The upstream activity by the Company of seismic surveys, well site surveys and drilling operations all require Commonwealth and/or State/Territory approvals of environment plans and safety cases and the preparation of Environment Plans to manage the conduct of the activities and the contractors engaged by the Company to undertake the work.

A Health and Safety advisor was engaged specifically for the drilling of the Zeus-1 well. There were no reported environmental incidents or Lost Time Injuries (LTI's) during the drilling of the Zeus-1 exploration well (33 days on contract) in WA-361-P and the acquisition of 250 km<sup>2</sup> of 3D seismic (21 days) in WA-360-P using the MV Orient Explorer.

The Company's development activities on Tassie Shoal are subject to environment conditions specified in the Offshore Petroleum and Greenhouse Gas Storage Act (2006), associated Regulations and Directions, as well as the Environment Protection and Biodiversity Conservation (EPBC) Act (1999). During the year there were no known contraventions of any relevant environmental regulations.

#### 8. DIVIDENDS

No dividend has been paid, provided or recommended during the financial year and to the date of this report (2008: nil).

#### 9. SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or state of affairs of the Group, in future financial years.

#### 10. LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company has advised that it was undertaking a farmout for part of MEO's 70% interest in WA-360-P which contains the Artemis prospect. The timetable for the farmout is based on receipt of indicative offers by end August 2009 with evaluation of offers during September and an announcement of a binding agreement on or before the end of September 2009. During the 2009/2010 financial year the Company will commence the process for farming-out part of MEO's interest in NT/P68.

#### 11. DIRECTORS' INTERESTS

At the date of this report the relevant beneficial and non-beneficial interests of each of the directors in the shares and share options in the Company were:

All options were granted during the financial year. No options have been granted since the end of the financial year.

##### Unissued shares under options

At the date of this report unissued ordinary shares of the Company under option are:

| Expiry Date       | Exercise Price | Number of Shares |
|-------------------|----------------|------------------|
| 30 November 2009  | \$0.50         | 3,400,000        |
| 30 September 2011 | \$0.50         | 2,000,000        |
| 30 June 2012      | \$0.50         | 8,000,000        |

All options expire on the earlier of their expiry date or termination of the employee's employment. In addition, the ability to exercise the options is conditional on meeting the vesting conditions which are time based vesting conditions.

These options do not entitle the holder to participate in any share issue of the Company.

##### Shares issued on the Exercise of Compensation Options

During or since the end of the financial year, there has been no issue of ordinary shares as a result of the exercise of options.

##### Share Performance Rights

At 30 June 2008, 2,000,000 share performance rights granted to Mr C R Hart were outstanding. Mr Hart retired from the position of Managing Director in July 2008 and all performance rights lapsed.

#### 13. INDEMNIFICATION AND INSURANCE OF DIRECTORS

The Company paid a premium in respect of a contract insuring all directors of the Company against legal costs incurred in defending proceedings as permitted by Section 199B of the Corporations Act 2001. Disclosure of premium details is prohibited under the policy.

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 1 CORPORATE INFORMATION**

The financial report of MEO Australia Limited (“MEO Australia”, or the “Company”) for the year ended 30 June 2009 was authorised for issue in accordance with a resolution of the directors on 17 September 2009.

MEO Australia Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on Australian Stock Exchange.

The nature of operations and principal activities of the Group are described in note 3.

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **(a) Basis of Preparation**

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board, and is presented in Australian dollars. The financial report has also been prepared on a historical cost basis.

##### **(b) Compliance with IFRS**

The financial report complies with Australian Accounting Standards issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

##### **(c) New Accounting Standards and Interpretations**

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2009 reporting period. The Group’s assessment of the impact of these new standards and interpretations is set out below.

*(i) AASB 101 (Revised) Presentation of Financial Statements, AASB 2007-8 Amendments to Australian Accounting Standards arising from AASB 101 and AASB 2007-10 Further Amendments to Australian Accounting Standards arising from AASB 101 (effective from 1 January 2009)*

This September 2007 revised AASB 101 requires the presentation of a statement of comprehensive income and makes changes to the statement of changes in equity, but will not affect any amounts recognised in the financial statements. If the Group makes a prior period adjustment or has reclassified items in the financial statements, it will need to disclose a third balance sheet (statement of financial position), this one being as at the beginning of the comparative period. The Group will apply the revised standard from 1 July 2009.

*(ii) AASB 3 (Revised) Business Combinations, AASB 127 Consolidated and Separate Financial Statements and AASB 2008-3 Amendments to Australian Accounting Standards arising from AASB 3 and AASB 127 (effective 1 July 2009)*

The revised AASB 3 continues to apply the acquisition method to business combinations, but with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments subsequently remeasured through the income statement. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs must be expensed.

The revised AASB 127 requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is remeasured to fair value, and a gain or loss is recognised in profit or loss. This is consistent with the Group's current accounting policy if significant influence is not retained.

## **MEO Australia Limited**

ABN 43 066 447 952

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

The Group will apply the revised standards prospectively to all business combinations and transactions with non-controlling interest from 1 July 2009.

##### *(iii) AASB 8 Operating Segments*

The new standard requires a “management approach” under which segment information is prepared on the same basis as that used for internal reporting purposes. This has resulted in the segments being reported in a manner that is materially consistent with the internal reporting provided to the Chief Operating Decision Maker (“CODM”). The Group have assessed the CODM as the Board of Directors of MEO Australia Limited.

Based on an analysis performed, the reported segments for the Group is not expected to be different from the current segments as reported under AASB 114 *Segment Reporting*. The Group will apply this standard from 1 July 2009.

##### *(iv) The following measurement amendments are not relevant or material to the Group:*

- AASB 2008-7 Amendments to Australian Accounting Standards - Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate (effective 1 July 2009);
- AASB Interpretation 16 Hedges of a Net Investment in a Foreign Operation (effective 1 October 2008)
- AASB 2008-1 Amendments to Australian Accounting Standard - Share-based Payments: Vesting Conditions and Cancellations;
- AASB 2008-2 Amendments to Australian Accounting Standards - Puttable Financial Instruments and Obligations arising on Liquidation;
- AASB 2008-5 Amendments to Australian Accounting Standards arising from the Annual Improvements Project;
- AASB 2008-6 Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project;
- AASB 2008-8 Amendments to Australian Accounting Standards - Eligible Hedged Items;
- AASB 2008-9 Amendments to AASB 1049 for consistency with AASB 101;
- AASB 2008-11 Amendments to Australian Accounting Standards - Business Combinations Among Not-for-Profit Entities;
- AASB Interpretation 15 Agreements for the Construction of Real Estate; and
- AASB Interpretation 17 Distribution of Non-cash Assets to Owners and AASB 2008-13 Amendments to Australian Accounting Standards arising from AASB Interpretation 17

#### **(d) Basis of consolidation**

The consolidated financial statements comprise the financial statements of MEO Australia Limited and its subsidiaries as at 30 June 2009 and the results of all the subsidiaries for the year then ended (the Group).

Subsidiaries are all those entities over which the group has the power to govern the financial and operating policies so as to obtain benefits from their activities.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. In preparing the consolidated financial statements, income, expenses and profits and losses from intra group transactions, have been eliminated in full. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group.

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(e) Significant accounting judgements, estimates and assumptions**

The carrying amounts of certain assets and liabilities are often determined based on judgements, estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

##### *Share-based payment transactions*

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of share options is determined by an external valuer using a binomial option pricing model, and using the assumptions detailed in note 22.

##### *Exploration and evaluation costs*

Exploration and evaluation costs are deferred until exploration and evaluation activities reach a stage which permits reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations are continuing. Where ongoing committed activities cannot be funded by existing financial resources, the Group will either need to raise additional capital or meet its obligations by (partial) farmout or (partial) sale of the company's interests.

The Group may raise capital by any one or a combination of the following: placement of shares, pro-rata issue to shareholders, the exercise of outstanding share options, and/or a further issue of shares to the public. Should these methods not be considered to be in the best interests of shareholders, then the Group would seek to meet its obligations by either partial sale of the Group's interests or farmout.

Significant judgement is required in determining whether it is likely that future economic benefits will be derived from the capitalised exploration and evaluation expenditure. In the judgement of the Directors, at 30 June 2009 exploration activities in each area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. Active and significant operations in relation to each area of interest are continuing and nothing has come to the attention of the Directors to indicate future economic benefits will not be achieved. The Directors are continually monitoring the areas of interest and are exploring alternatives for funding the development of areas of interest when economically recoverable reserves are confirmed. If new information becomes available that suggests the recovery of expenditure is unlikely, the amounts capitalised will need to be reassessed at that time.

##### **(f) Segment reporting**

A business segment is a distinguishable component of the entity that is engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is a distinguishable component of the entity that is engaged in providing products or services within a particular economic environment and is subject to risks and returns that are different than those of segments operating in other economic environments.

##### **(g) Foreign currency translation**

###### **(i) Functional and presentation currency**

Both the functional and presentation currency of the Group is Australian dollars (\$). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

## **MEO Australia Limited**

ABN 43 066 447 952

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(g) Foreign currency translation (cont)**

###### **(ii) Transactions and balances**

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date.

All exchange differences in the consolidated report are taken to the profit and loss.

##### **(h) Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purpose of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

##### **(i) Derivative financial instruments and hedging**

The Group uses derivative financial instruments such as forward currency contracts to hedge its risks associated with foreign currency fluctuations. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured to fair value. Certain derivatives do not qualify for hedge accounting and changes in the fair value are recognised immediately in the profit and loss in other revenues and expenses. Derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

Any gains or losses arising from the changes in the fair value of derivatives, except those that qualify as cash flow hedges are taken directly to profit and loss for the year.

The fair values of forward currency contracts are calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

##### **(j) Plant and equipment**

Plant and equipment is stated at cost less accumulated depreciation and any impairment losses. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets which range from 4 to 15 years.

###### *Impairment*

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the assets value in use can be estimated to be close to its fair value. An impairment exists when the carrying value of an asset exceeds its estimated recoverable amount. The asset is written down to its recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the period the item is derecognised.

## **MEO Australia Limited**

ABN 43 066 447 952

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(k) Methanol and LNG project costs**

Research and feasibility costs are expensed as incurred. Development expenditure incurred on a project is carried forward when its future recoverability can reasonably be regarded as assured.

Following the initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure carried forward is amortised over the period of expected future revenue from the related project.

The carrying value of development costs is reviewed for impairment annually when the asset is not yet in use, or more frequently when an indicator of impairment arises during the reporting year indicating that the carrying value may not be recoverable.

##### **(l) Exploration and evaluation costs**

Exploration and evaluation expenditure is carried at cost. If indication of impairment arises, the recoverable amount is estimated and an impairment loss is recognised to the extent that the recoverable amount is lower than the carrying amount.

Exploration and evaluation costs are accumulated separately for each current area of interest and carried forward provided that one of the following conditions is met:

- such costs are expected to be recouped through successful development or sale; or
- exploration activities have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in relation to the area are continuing.

##### *Impairment of exploration and evaluation costs*

To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, profits and net assets will be reduced in the period in which this determination is made.

##### **(m) Intangible assets**

Intangible assets acquired are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite lives are amortised over the useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and method for an intangible asset with a finite useful life is reviewed at least annually. Changes in the expected useful life are accounted for by changing the amortisation period or method, which is a change in an accounting estimate. Amortisation expense is recognised in profit or loss in the expense category consistent with the function of the intangible asset.

##### **(n) Investments and other financial assets**

Investments in subsidiary companies are accounted for at cost less accumulated impairment losses in the parent entity financial statements.

##### **(o) Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in receivables in the balance sheet.

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(o) Loans and receivables (cont)**

###### *Recognition and derecognition*

Regular purchases and sales of financial assets are recognised on trade date, the date on which the Group commits to purchase or sell the asset.

###### *Subsequent measurement*

Loans and receivables are carried at amortised cost using the effective interest method.

###### *Impairment*

The Group assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets is impaired.

##### **(p) Interests in joint ventures**

###### *Jointly controlled assets*

A jointly controlled asset involves joint control and offers joint ownership by the Group and other venturers of assets contributed to or acquired for the purposes of the joint venture, without the formation of a corporation, partnership or entity.

The Group accounts for its share of the jointly controlled assets, and liabilities it has incurred, its share of any liabilities jointly incurred with other ventures, income from the sale or use of its share of the joint venture's output, together with its share of the expenses incurred by the joint venture, and any expenses it incurs in relation to its interest in the joint venture.

##### **(q) Leases**

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependant on the use a specific asset or assets and the arrangement conveys a right to use the asset.

Leases under which the lessor retains substantially all of the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised in the income statement on a straight-line basis over the lease term.

##### **(r) Trade and other payables**

Trade and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of the goods and services.

##### **(s) Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2009**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

**(s) Provisions (cont)**

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance sheet date. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

***Employee leave benefits***

*Wages, salaries, annual leave and sick leave*

Liabilities for wage and salaries, including non-monetary benefits and annual leave entitlements expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' service up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

*Long service leave*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date in national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

**(t) Share-based payment transactions**

The Group provides benefits to employees (including directors) of, and consultants to, the Group in the form of share-based payment transactions, whereby services are rendered in exchange for shares or rights over shares ('equity-settled transactions'). There are currently two plans in place to provide these benefits:

- (i) Senior Executives and Officers Option Plan, which provides benefits to directors and senior executives, and
- (ii) MEO Australia Performance Plan which provides benefits to senior executives and consultants.

The cost of equity-settled transactions is measured by reference to the fair value at the date at which they are granted. The fair value of options and performance rights with market based performance criteria is determined by an external valuer using a binomial option pricing model. The fair value of performance plan rights with non-market performance criteria is determined by reference to the Company's share price at date of grant.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the recipient becomes fully entitled to the award ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the directors, based on the best available information at balance date, will ultimately vest. No adjustment is made for the likelihood of market conditions being met as the effect of these conditions is included in determination of fair value at grant date. The charge or credit for the period represents the movement in cumulative expense recognised as at the beginning and end of the period.

## **MEO Australia Limited**

ABN 43 066 447 952

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(t) Share-based payment transactions (cont)**

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

##### **(u) Contributed equity**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

##### **(v) Reserved shares**

Own equity instruments reacquired for later payment as employee share-based payment awards (treasury shares) are deducted from equity. No gain or loss is recognised on the purchase, sale, issue or cancellation of the Group's own equity instruments.

##### **(w) Revenue**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Specific recognition criteria must also to be met:

###### *Interest income*

Revenue is recognised as the interest accrues using the effective interest method.

##### **(x) Income tax**

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted by balance date.

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

## **MEO Australia Limited**

ABN 43 066 447 952

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)**

##### **(x) Income tax (cont)**

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be used, except:

- where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- when the deductible temporary differences is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be applied.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the income statement.

Deferred tax assets and deferred tax liabilities are offset only where a legally enforceable right of set off exists and the deferred tax assets and liabilities relate to the same taxable entity.

##### *Tax consolidation legislation*

MEO Australia Limited and its wholly owned subsidiaries have implemented the tax consolidation legislation as of 1 July 2004.

The head entity, MEO Australia Limited and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current tax and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, MEO Australia Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

**(y) Goods and services tax**

Revenues, expenses and assets are recognised net of GST, except receivables and payables which are stated with GST included. Where GST incurred on a purchase of goods or services is not recoverable from the taxation authority, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

**(z) Earnings per share**

Basic earnings per share is calculated as net profit/(loss) attributable to members divided by the weighted average number of ordinary shares.

Diluted earnings per share is calculated as net profit/(loss) attributable to members divided by the weighted average number of ordinary shares and dilutive potential ordinary shares.

**Tax consolidation****(i) Members of the tax consolidated group**

MEO Australia Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2004. MEO Australia Limited is the head entity of the tax consolidated group.

**(ii) Tax effect accounting by members of the tax consolidated group***Measurement method adopted under UIG 1052 Tax Consolidated Accounting*

The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. The current and deferred tax amounts are measured in a systematic manner that is consistent with the principles in AASB 112 *Income Taxes*.

In addition to its own current and deferred tax amounts, the head entity also recognises current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

**Tax losses**

At balance date, the Group has estimated unused gross tax losses of \$157,588,000 (2008 \$140,930,000) that are available to offset against future taxable profits subject to continuing to meet relevant statutory tests. To the extent that it does not offset a net deferred tax liability, a deferred tax asset has not been recognised in the accounts for these unused losses because it is not probable that future taxable profit will be available to use against such losses.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2009****NOTE 6 EARNINGS (LOSS) PER SHARE**

Basic earnings (loss) per share amounts are calculated by dividing net loss for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings (loss) per share amounts are calculated by dividing the net loss attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

For the year ended 30 June 2009 and for the comparative period, there are no dilutive potential ordinary shares as conversion of share options and performance rights would decrease the loss per share and hence are non-dilutive.

The following data was used in the calculations of basic loss per share:

|  | <b>Consolidated</b>          |                              |

Transactions involving ordinary shares or potential ordinary shares that have occurred between the reporting date and the date of completion of these financial statements are set out in note 22. No dividends were paid during the year and no dividends are proposed. No franking credits are held by the Group.

At 30 June 2009, the Group wrote-off \$10,911,467 of costs associated with the Zeus area of interest in WA-361-P due to the dry hole result from the Zeus-1 exploration well and wrote-off \$1,436,117 of capitalised costs related to WA-359-P due to limited exploration activity expected in the permit. In addition, the Group wrote-off \$14,721,384 of seismic and Heron-1 well production testing costs relating to the Epenarra geological area of interest in NT/P68.

The Group continues to carry forward \$112,860,393 of seismic and well related costs for the Elang/Plover and Blackwood geological areas of interest in NT/P68 and \$9,268,815 of seismic and other costs related to the Artemis prospect in WA-360-P.

### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009**

#### **NOTE 16 CONTRIBUTED EQUITY AND RESERVES (cont)**

##### **(a) Terms and Condition of Ordinary Shares**

Ordinary shares entitle their holder to receive dividends as declared. In the event of winding up the company, ordinary shares entitle their holder to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up or which should have been paid up on shares held. Each ordinary share entitles the holder to one vote, either in person or by proxy, at a meeting of the company. Ordinary shares issued during the year and since the end of the year, from date of issue rank equally with the ordinary shares on issue.

##### **(b) Trustee Stock Scheme**

In 2000, the Company established a Trustee Stock Scheme, pursuant to which ordinary shares, ranking equally with other ordinary shares on issue, were issued to a trustee. When those shares are sold by the trustee the net proceeds are paid to the Company by way of subscription monies. The Trustee does not exercise any voting rights in respect of shares held pursuant to the scheme. The Trustee may sell shares at a discount up to 20% to the last sale price and at a greater discount, if so approved by the directors and recommended by a stockbroker. In 2006, by orders of the Supreme Court of Victoria the vesting date of the plan was extended for 5 years to 25 August 2010.

##### **(c) Share Options**

At 30 June 2009 13,400,000 options over unissued shares granted to directors/ex-directors, executives and consultants were outstanding. The options are granted pursuant to the Senior Executives and Officers Option Plan, details of which are set out in note 22.

##### **(d) Capital Management**

Capital is defined as equity. When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits of other stakeholders. All methods of returning funds to shareholders outside of dividend payments or raising funds are considered within the context of its balance sheet objectives.

The Group will seek to raise further capital, if required, as and when necessary to meet its projected operations. The decision of how the Group will raise future capital will depend on market conditions existing at that time. It is the Group's plan that this capital will be raised by any one or a combination of the following: placement of shares, pro-rata issue to shareholders, the exercise of outstanding options, and/or a further issue of shares to the public. Should these methods not be considered to be viable, or in the best interests of shareholders, then it would be the company's intention to meet its obligations by either partial sale of the Company's interests or farmout, the latter course of action being part of the Company's overall strategy.

The Group is not subject to any externally imposed capital requirements.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

#### NOTE 18 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments, other than derivatives, comprise cash and short term deposits, the main purpose of which is to finance the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations. The main risks arising from the Group's financial instruments are credit risk, interest rate risk, exchange rate risk and liquidity risk. The Board of Directors has reviewed each of those risks and has determined that they are not significant in terms of the Group's current activities. The Group also enters into derivative financial instruments, principally forward currency contracts. The purpose is to manage the currency risks arising from the Group's operations. Speculative trading in derivatives is not permitted. There are no derivatives outstanding at 30 June 2009 (2008: \$nil).

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2 to the financial statements.

##### *Credit risk*

The Group trades only with recognised, creditworthy third parties. Receivable balances are monitored on an ongoing basis with the results being that the Group's exposure to bad debts is not significant.

Credit risk arises from the financial assets of the Group, which comprise cash and cash equivalents and trade and other receivables. The Group's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. No collateral is held as security. Exposure at balance date is the carrying value as disclosed in each applicable note.

##### *Interest rate risk*

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's cash and cash equivalents with a floating interest rate:

|   | Consolidated |            | Parent     |            |
|---|--------------|------------|------------|------------|
|   | 2009<br>\$   | 2008<br>\$ | 2009<br>\$ | 2008<br>\$ |
| Cash and cash equivalents                         | 17,200,481   | 24,343,540 | 12,594,045 | 17,652,623 |
| Weighted average effective floating interest rate | 5%           | 7%         | 5%         | 7%         |

Short term deposits are made for varying periods of between one and three months, depending on the immediate cash requirements of the Group, and earn interest at the respective short term deposit rates.

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, the Group and parent believes that +/-1.0% from the year-end rates of 5% represents the 'reasonably possible' movement in interest rates over the next 12 months. The following is the impact of this on the profit or loss with all other variables including foreign exchange rates held constant:

|  | Consolidated and Parent<br>Net Profit |            |
|--|---------------------------------------|------------|
|  | 2009<br>\$                            | 2008<br>\$ |
| +1.0% (100 basis points) increase/decrease in interest rates<br>with all other variables held constant | 126,000                               | 177,000    |
| -1.0% (100 basis points) increase/decrease in interest rates<br>with all other variables held constant | (126,000)                             | (177,000)  |

There is no impact on equity other than the above net profit sensitivities on retained earnings/accumulated losses.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2009****NOTE 18 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont)***Foreign currency risk*

The Group's exposure to exchange rate risk relates primarily to trade payables and cash denominated in US dollars. Where a payable is significant, US dollars are purchased on incurring the liability or commitment. The Group also manages its currency risk through the active management of its exposures. This includes entering into various forward currency contracts throughout the year. At balance date and at 30 June 2008, all the contracts were closed.

The Group's and parent's exposure to its unhedged financial assets and liabilities is as follows:

|                                    | <b>Consolidated</b> |                   | <b>Parent</b>    |                  |

The following sensitivity analysis is based on the foreign currency risk exposure in existence at the balance sheet date, with all other variables remaining constant:

|  | <b>Consolidated and Parent<br/>Net Profit</b> |             |
|--|---|-------------|
|  | <b>2009</b>                                   | <b>2008</b> |
|  | <b>\$</b>                                     | <b>\$</b>   |
| 10% strengthening in AUD/USD rate (for 2009 from 0.81 to 0.89 and for 2008 from 0.96 to 1.06) with all other variables held constant | (249,000)                                     | (865,000)   |
| 10% weakening in AUD/USD rate (for 2009 from 0.81 to 0.73 and for 2008 from 0.96 to 0.87) with all other variables held constant     | 304,000                                       | 1,057,000   |

A sensitivity of 10% has been selected as this is considered reasonable given the current level of exchange rates and the volatility observed both on a 5 year historical basis and market expectations for potential future movement.

There is no impact on equity other than the above net profit sensitivities on retained earnings/accumulated losses.

*Liquidity Risk*

The Group's exposure to financial obligations relating to corporate administration and projects expenditure, are subject to budgeting and reporting controls, to ensure that such obligations do not exceed cash held and known cash inflows for a period of at least 1 year.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built in an appropriate liquidity risk framework for the management of the Group's short, medium and longer term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate equity funding through the monitoring of future cash flow forecasts of its operations, which reflect management's expectations of the settlement of financial assets and liabilities.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2009****NOTE 18 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont)**

The Group has limited financial resources and will need to raise additional capital from time to time as such fund raisings will be subject to factors beyond the control of the Company and its directors. When MEO requires further funding for its programs, then it is the Company's intention that the additional funds will be raised by any one or a combination of the following: placement of shares, pro-rata issue to shareholders, the exercise of outstanding options, and/or a further issue of shares to the public. Should these methods not be considered to be viable, or in the best interests of shareholders, then it would be the Company's intention to meet its obligations by either partial sale of the Company's interests or farmout, the latter course of action being part of the Company's overall strategy.

*Maturity Analysis*

At balance date, the group holds \$1,261,299 of financial liabilities consisting of trade and other payables. All financial liabilities have a contractual maturity of 30 days except for the accrued demobilisation costs of the Songa Venus Drill Rig. It is expected that this liability of \$400,000 will be settled in 2010.

*Fair Values*

The aggregate net fair values of the financial assets and liabilities are the same as balance sheet carrying values.

|   | <u>100,000</u> | <u>200,000</u> |

In respect of NT/P68, the Group has permit year 6 geotechnical studies as the remaining permit commitment.

**Exploration Commitments – WA-359-P, WA-360-P, WA-361-P**

In 2008, MEO met its obligations in respect of the farm-in to the WA Permits (WA-361-P, WA-360-P & WA-359-P) with the acquisition of 2D and 3D seismic surveys.

The remaining permit obligations for the WA permits are as follows:

**WA-359-P and WA-360-P**

MEO has the option to elect to drill a well in each permit or drop its interest in the permit– this election must be made by 1 January 2010.

**WA-361-P**

In respect of WA-361-P, the Group has permit year 6 geotechnical studies as the remaining permit commitment of \$60,000.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

#### NOTE 22 SHARE BASED PAYMENT PLANS

##### *Senior Executives and Officers Option Plan*

Share options are granted to senior executives and non-executive directors. During the financial year 7,700,000 options (2008: 5,300,000 options) were granted – details are set out below.

##### **Movements in share options on issue during the year:**

|  | <b>2009</b>       | <b>2008</b>       |
|--|-------------------|-------------------|
|  | <b>Options</b>    | <b>Options</b>    |
| Outstanding at the beginning of the year | 10,700,000        | 6,800,000         |
| Granted during the year                  | 7,700,000         | 5,300,000         |
| Forfeited during the year                | (5,000,000)       | -                 |
| Exercised during the year                | -                 | (1,400,000)       |
| Outstanding at the end of the year       | <u>13,400,000</u> | <u>10,700,000</u> |

At a General Meeting of Shareholders on 21 August 2008 shareholders approved the granting of 1,000,000 options exercisable at a price of 50 cents per option on or before 30 November 2009 to each of Messrs N M Heath, J Hendrich and G A Short. These options vested on 15 May 2009, 16 June 2009 and 14 July 2009 respectively.

The fair value of the options at date of grant is estimated to be 12.1 cents for the tranche of 50 cents options granted to Mr N M Heath, 12.5 cents for the tranche of 50 cent options granted to Mr J Hendrich and 12.8 cents for the tranche of 50 cent options granted to Mr G A Short. The fair value was determined using a Barrier Option pricing model, taking into account the terms and conditions upon which the options were granted, and using the following inputs to the model:

|  |            |   |            |
|--|------------|---|------------|
| Expected volatility  | 95%        | Contractual life  | 1.25 years |
| Risk-free interest rate  | 5.875%     | Dividend yield  | 0%         |
| Early exercise multiple/estimated life<br>- options N M Heath  | 1.15 years | Early exercise multiple/estimated<br>life – options G A Short | 1.20 years |
| Early exercise multiple/estimated life<br>– options J Hendrich | 1.18 years |   |            |

The total amount expensed in the year relating to these share options was \$193,767.

The effects of early exercise have been incorporated into the calculations by using an expected life for the option that is shorter than the contractual life based on historical exercise behaviour, which is not necessarily indicative of exercise patterns that may occur in the future.

At the Annual General Meeting of Shareholders on 13 November 2008 shareholders approved the granting of 1,000,000 options exercisable at a price of 50 cents per option on or before 30 September 2011 to each of Messrs M J F Sweeney and S W Hopley. These options vest on 30 September 2009.

The fair value of the options at date of grant is estimated to be 3.82 cents. The fair value was determined using a Barrier Option pricing model, taking into account the terms and conditions upon which the options were granted, and using the following inputs to the model:

|  |           |                  |         |
|--|-----------|------------------|---------|
| Expected volatility                    | 95%       | Contractual life | 3 years |
| Risk-free interest rate                | 3.76%     | Dividend yield   | 0%      |
| Early exercise multiple/estimated life | 2.7 years |                  |         |

The total amount expensed in the year relating to these share options was \$19,100.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

#### NOTE 22 SHARE BASED PAYMENT PLANS (cont)

The effects of early exercise have been incorporated into the calculations by using an expected life for the option that is shorter than the contractual life based on historical exercise behaviour, which is not necessarily indicative of exercise patterns that may occur in the future.

In June 2009, 2,700,000 share options were granted to executives exercisable at a price of 50 cents per option on or before 30 June 2012. These options vest 50% on 30 June 2010 and 50% on 30 June 2011.

The fair value of the options at date of grant is estimated to be 10.72 cents for the options vesting on 30 June 2010 and 13.28 cents for options vesting on 30 June 2011. The fair value was determined using a Barrier Option pricing model, taking into account the terms and conditions upon which the options were granted, and using the following inputs to the model:

|  |            |  |            |
|--|------------|--|------------|
| Expected volatility  | 130%       | Contractual life (years)   | 4          |
| Risk-free interest rate  | 4.56%      | Dividend yield   | 0%         |
| Early exercise multiple/estimated life for options expiring 30 June 2010 | 2.72 years | Early exercise multiple/estimated life for options expiring 30 June 2011 | 2.88 years |

The total amount expensed in the year relating to these share options was \$651.

The effects of early exercise have been incorporated into the calculations by using an expected life for the option that is shorter than the contractual life based on historical exercise behaviour, which is not necessarily indicative of exercise patterns that may occur in the future.

#### *MEO Australia Performance Plan*

Performance rights granted to executives and consultants entitle recipients to one fully paid ordinary share in the Company for each right held, upon attainment of performance conditions and upon expiration of the vesting period in relation to relevant shares. The Company purchases shares on market on behalf of the plan trustee to satisfy obligations under the Plan upon satisfaction of performance conditions.

Performance conditions include non market criteria being achievement of operational milestones in the development of the TSMP Methanol project and the TSLNG LNG project and NT/P68 and market criteria, being an increase in the Company's share price. Shares acquired on satisfaction of performance criteria may be subject to vesting periods based on cumulative vesting timetables for each holder of performance rights.

The fair value of rights with non-market conditions is the Company's share price at date of grant. The number of those rights, the fair value of which is recognised at balance date, is determined by the estimated likelihood of the rights vesting, i.e. the performance conditions being met. The amount recognised for such rights that expire unvested, is reversed.

## Independent Auditor's Report to the Members of MEO Australia Limited

### Report on the Financial Report

We have audited the accompanying financial report of MEO Australia Limited, which comprises the balance sheet as at 30 June 2009, and the income statement, statement changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

#### *Directors' Responsibility for the Financial Report*

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2(b), the directors also state that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Independence*

In conducting our audit we have met the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

### **Auditor's Opinion**

In our opinion:

1. the financial report of MEO Australia Limited is in accordance with the *Corporations Act 2001*, including:
  - i giving a true and fair view of the financial position of MEO Australia Limited and the consolidated entity at 30 June 2009 and of their performance for the year ended on that date; and
  - ii complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.
2. the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

### **Report on the Remuneration Report**
