

Block 9: Alameda-2 Operations Update 20 October 2023

Highlights

- Early production from Unit 1B of Alameda-2 commenced 0800 Cuba Time.
- Production proceeding as planned.
- Great collaboration between the Block 9 JV and CUPET to establish early production of Unit 1B higher quality oil.
- Delivering on Melbana's Mission to discover and produce oil and gas in countries that need and support the hydrocarbon industry.

A great start to another fine day in Cuba
